

## DAROTopp® Synthetic Topping Projects

www.trancels.com

### Ismaili Imammat Embassy - Ottawa

### Project Highlights

→ New construction project with concrete floor slabs on ground level and 2nd floor

→ **DAROTopp®** installed 35mm - 65mm on two levels - area of approx 25,000 ft.<sup>2</sup>

→ **DAROTopp®** selected based on overall **performance**; addressing the need for a completely level/smooth surface with **no** control joints or saw cuts required. A 5mm PE-insulation was also installed to improve sound values.

### Ismaili Imammat Embassy , Mar 2008

- **DAROTopp®** installed on slipsheet over 5-20mm PE insulation to level concrete floor surface and improve sound
