

**McMaster University, Hamilton, ON**

**Project Highlights**

→ Structural slab topping to level floors in new 5 level engineering building.

→ **DAROTopp®** installed approximately 70,000ft<sup>2</sup> with **DARO/StonCarpet** finish.

→ **DAROTopp®** selected for its unique properties; completely level/smooth surface with minimum control joints or sawcuts with long-term performance **guarantee**. This totally leveled topping provided excellent base for **LEED** compliant custom very **durable** and **jointless** StonCarpet trowel down finish of pure silica sand and epoxy.

**McMaster University Engineering Bldg, Feb 2009**

- **DAROTopp®** installed 50mm avg topping over slip-sheet with some acoustic insulation on 4 levels of structural slabs.
- Owner: McMaster University, Hamilton, ON
- Contractor: Bird Construction Company
- Architect: Vermeulen Hind Architects
- Applicator: Belmont Concrete
