

DAROTopp® Synthetic Topping Projects

www.trancels.com

Ottawa Civic Hospital - Ottawa

Project Highlights

→ Existing concrete floor slab construction with existing terrazzo removed

→ **DAROTopp®** installed 1" - 2 1/2" on Level 3 in area of approx 7,000 ft.²

→ **DAROTopp®** selected based on overall **performance**; completely level/smooth surface with **no** control joints or saw cuts required. Existing slab was extremely rough and uneven, especially in areas where terrazzo was removed. Substantial time and cost could have been saved if aware earlier, as **no** removals were necessary.

Ottawa Civic Hospital Level 3 reno , Nov 2007

- **DAROTopp®** installed on slipsheet in renovation project to level rough/uneven concrete floor surface, in particular where original terrazzo had been removed
